

CROSTOWN DOUGHNUTS

Crosstown Doughnuts – their very first permanent store outside of London since Crosstown began in 2014. After a full strip out the project consisted of a new floor laid throughout the shop followed by banquette seating and a multitude of bespoke joinery.

With all joinery items from Bluecrow, we proceeded with the fit-out of two front serving counters, one for doughnuts and Ice cream, and the second counter dedicated to their coffee station. Both counters incorporating fridges, cupboards, serving areas with a special doughnut housing UV bonded glass display case.

Tiling to the rear walls had to match the front customer facing counters, with an addition of a heat branded logo for all to see. The key feature within this project was the steel doughnut display with glass dome tops as you enter the shop. This really does show off their award winning selection.

When it comes to shopfitting, Bluecrow specialise in the restaurant, bar and retail sectors. We have the confidence, knowledge and expertise to deliver your vision on time and within budget.
