

FORMATIVE COFFEE

Bluecrow Projects in collaboration with Project Office have delivered an exciting new coffee shop in the heart of the new Buckingham Green complex.

Bespoke white powder coated aluminium feature lighting illuminates the red painted high ceiling giving off a pattern that draws the eye as you enter the shop. The feature walls are a mix of Matt and Gloss white angled tiles, a subtle yet great detail that is carried around all of the walls with Matt and Gloss white paint continuing the pattern.

The sizeable and impressive black powder coated feature shelving contrasts with the colour of the angled tiles and follows the angles to give a bold and invigorating feel to the coffee shop.

The bespoke joinery item is finished with a stylish handcrafted terrazzo stone counter from Italy that houses all of the ingredients for an award winning cup of coffee anytime of the day!

When it comes to shopfitting, Bluecrow specialise in the restaurant, bar and retail sectors. We have the confidence, knowledge and expertise to deliver your vision on time and within budget.
