

# GAYA'S CAKES

Starting a project in a blank canvas is always a great place to start, and with lots of previous experience, the Bluecrow team assisted with design and layout of the project which included a new mezzanine floor, bespoke made staircase to the stores area, front of house customer area and back of house kitchen.

Within this project there was a brand new shopfront to keep in line with building regulations colour, material and design Front of house has been created in a clean, white minimalist feel and completely fitted kitchen with a altro flooring and PVCU Whiterock walls.

As well as the bespoke staircase, Bluecrow Joinery also created a consultation table with bespoke glass cake display case and a huge kitchen workstation which incorporates a wonderful natural bull nose Carrera top.

When it comes to shopfitting, Bluecrow specialise in the restaurant, bar and retail sectors. We have the confidence, knowledge and expertise to deliver your vision on time and within budget.
