

ISLINGTON OFFICES

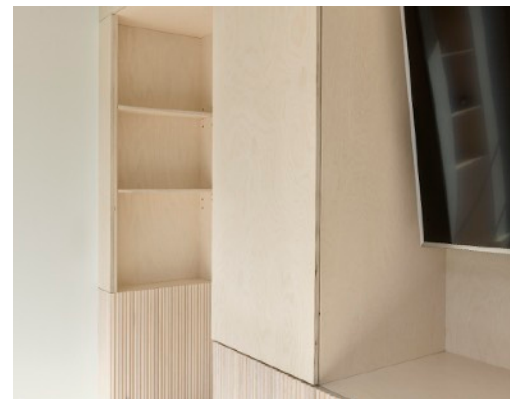

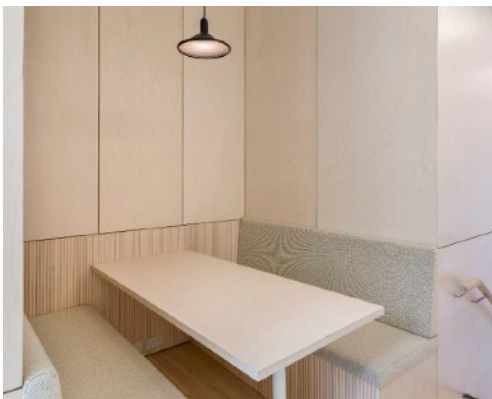

The first collaboration for Bluecrow and IF_DO Architects and Design found Bluecrow Joinery producing some simply exquisite pieces of furniture for this high end office fit-out.

This four week fit-out included timber flooring, redecoration throughout, refurbishment of existing bathrooms and bespoke bi-fold and pocket doors which help to make the most of the space.

Other items ranged from standard shelving to complete tailor made floor to ceiling units, lockers and even full height wall cladding. These were made with high end, white painted ply, lacquered and then sprayed to meet fire regulations, and all this done within our joinery workshop.

Some wonderful bespoke pieces from our joinery workshop. These were once built at our workshop to then be dismantled then shipped and refitted on site by our team of joiners.

When it comes to shopfitting, Bluecrow specialise in the restaurant, bar and retail sectors. We have the confidence, knowledge and expertise to deliver your vision on time and within budget.
