

RE:MIND STUDIO

Bluecrow Projects were approached by Oliver Heath Design to create what was a first for Bluecrow – London’s very first meditation studio, Re:Mind Studio.

The studio consists of bright and airy walls, doors made from reclaimed, chemical free wood and a ventilation system which cleanses the rooms of pollutants from the capital’s busy streets. Every element in this fit-out was key to the project. All timber used was reclaimed, the truly bespoke Resilica worktop which is hand made from 100% recycled glass waste to the minimal VOC and zero emissions paint throughout.

Two key focal points within the studio are the living green wall, which not only enhances the rooms already beautiful visuals but is a natural air-filter, and the glowing Himalayan salt lamp feature which can be seen through the large spherical window.

When it comes to shopfitting, Bluecrow specialise in the restaurant, bar and retail sectors. We have the confidence, knowledge and expertise to deliver your vision on time and within budget.
