

SCI BUY 2

Following huge success of the company, The Sci Buy Team employed Bluecrow to act as main contractor less than a year on from the successful first fit-out.

An 8 week job including complete strip-out of the existing premises again working with Project office, the brief being to help create a comfortable yet vibrant office over 3 floors. Many features within this fit-out included acoustic glazing and acoustic ceiling panels, to effectively give staff the chance to hold meetings and interact without breaking the concentration of those around the multi-floored workspace.

Particularly attractive features are the free-standing timber balustrades and white washed pine screens as well as terrazzo tables and sprayed mild steel, similar to the attractive features utilised in the first fit-out.

When it comes to shopfitting, Bluecrow specialise in the restaurant, bar and retail sectors. We have the confidence, knowledge and expertise to deliver your vision on time and within budget.
