

SWIFT BOROUGH

This is the third project from the teams at Bluecrow for Swift, and as with every project undertaken, we pride ourselves on quality workmanship from start to finish. This project comprised of a multitude of detailed features within the two different floors, offering two separate experiences.

On entering, you are greeted by the stunning bespoke enamel bar with round top nosing including a brass inlay trim, a signature throughout Swift Bars.

From checked floors and wall tiling, bespoke Marble leaner bars, to leather Banquette seating and extra large mirrors reflecting the narrow space giving you a sense of a larger venue, you walk on through to the end of the ground floor bar, where a doorway with reeded privacy glass either side, encapsulates a multiple mirrored room with more leather banquette seating for a more semi private, drinking room for small groups.

When it comes to shopfitting, Bluecrow specialise in the restaurant, bar and retail sectors. We have the confidence, knowledge and expertise to deliver your vision on time and within budget.
