

# WOK TO WALK

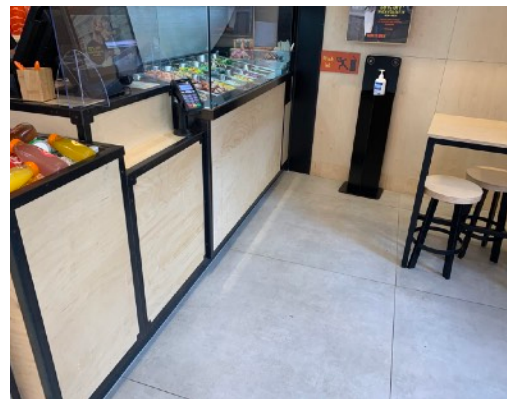

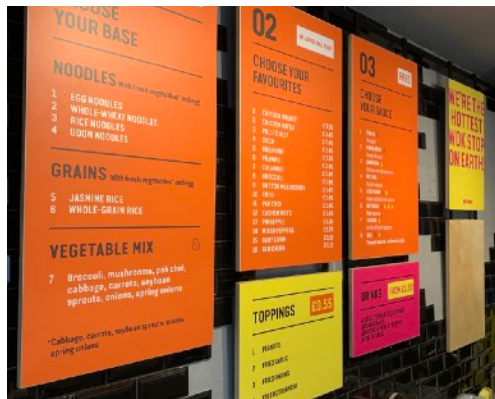

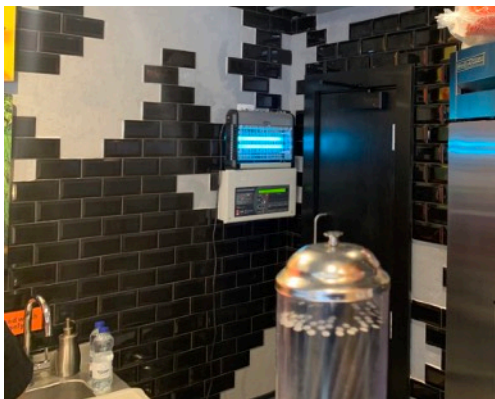

Wok To Walk – The best Wok in town – A Double Fit-Out!

A short time before CoronaVirus came and without being aware of the huge impact it would have on the industry, Wok To Walk decided to refit their restaurant in Brewer Street as well as Cranbourn Street and didn't look back.

Even with the city in lockdown, works were underway and continued in-line with the Government Health & Safety Guidelines ensuring all members of the team were safe to continue.

Bluecrow completed the two fit-outs with all joinery items supplied by Bluecrow joinery. This included many bespoke features ranging from timber coated in clear lacquer, an ice well, condiment trays, powder coated gantry's and powder coated black steel trims throughout – even the stalls were steel fabricated with a ply top to the owners design and specifications. We also built a new shopfront for Brewer street using solid Accoya timber with a Black paint finish.

When it comes to shopfitting, Bluecrow specialise in the restaurant, bar and retail sectors. We have the confidence, knowledge and expertise to deliver your vision on time and within budget.
