

## YAKI YAKI

Yaki Yaki is London's first Taiyaki (traditional Japanese fish-shaped filled waffles given a modern twist) brand, and we at Bluecrow had the pleasure of working with Gundry + Ducker in delivering this exciting new concept.

You are welcomed by a little lamb, (in the early 20th century the site was that of a butchers) carefully inlaid into antique terrazzo flooring that had been covered up for decades, and for good reason as signs of ageing are apparent with cracks running the length of the flooring.

The flooring is now restored with all cracks filled with a gold resin; a poetic nod to the buildings history and it's new Japanese heritage.

The servery counter takes centre stage with suitably placed post-modern motifs and vibrant colours leading to the rear seating corner, next to the aforementioned window with a view into another world! but don't forget your fish on the way out.

When it comes to shopfitting, Bluecrow specialise in the restaurant, bar and retail sectors. We have the confidence, knowledge and expertise to deliver your vision on time and within budget.
