

YIFANG - OXFORD

The second Yifang Taiwan Fruit Tea fit out for Bluecrow Projects, this time in the historic City of Oxford, designed with a warm lighting scheme and light oak joinery finishes in mind, this one is destined to make an impact on Queen Street.

Bluecrow Joinery constructed the bespoke front counter and gantry which includes finishes such as reeded glass panels and the distinctive hexagonal tiles used on the first Yifang fit out in Canary Wharf. One of the main issues with this project was the undulating existing floor, that made for a difficult installation of the front counter and the light oak flooring; issues that were overcome within the timeframe by Bluecrow Projects.

This fit out also included the installation of a fully functioning back of house tea kitchen, office space and the decoration to the run down shop front which was in dire need of a lick of paint.

When it comes to shopfitting, Bluecrow specialise in the restaurant, bar and retail sectors. We have the confidence, knowledge and expertise to deliver your vision on time and within budget.
