

YIFANG TEA

In the heart of Canary Wharf's shopping mall you can find Yifang Tea's kiosk nestled in the busy concourse.

The bespoke kiosk was produced by Bluecrow Joinery in their workshop, first built at their headquarters to ensure quality and fitment is 100% before everything is shipped to site location, then, once on site all joinery was reassembled.

Two large kiosks were produced to fulfil both Yifang's requirements and that of a Canary Wharf with one kiosk for Yifang Tea and a second for Dio Coffee. The intricate design allowed special bespoke banquette seating to be placed between both kiosks. All counter fronts were tiled once in place, with external doors produced in veneered oak and all interior storage areas cupboards and doors in an oak faced MFC.

The beautiful countertops are bespoke Corian, this is a solid surface, very hard wearing made from acrylic resin and mineral filler.

When it comes to shopfitting, Bluecrow specialise in the restaurant, bar and retail sectors. We have the confidence, knowledge and expertise to deliver your vision on time and within budget.
