

ACCURX - CAMPUS

Bluecrow teamed up with Project Office for what will become the accuRx Campus. The first phase of the workplace campus designed by Project Office for accuRx team is now complete with large open spaces being redesigned, as well as small nooks utilised, creating vibrant work spaces for maximum productivity.

The software company who are revolutionising the way healthcare providers and patients communicate, have expanded rapidly over the last two years, and outgrown the offices we previous fit-out for them back in 2019.

The new campus, located near Liverpool Street Station, is created from a series of former industrial buildings re-purposed to provide state of the art facilities for the whole team.

When it comes to shopfitting, Bluecrow specialise in the restaurant, bar and retail sectors. We have the confidence, knowledge and expertise to deliver your vision on time and within budget.
