

ACCURX

This was Bluecrow's 4th fit-out working with the team at Project Office, a four week office refurbishment, this time in Haggerston, for a successful app developer.

The job entailed a new lighting scheme, power layout and flooring and decoration throughout. This was also Projects first collaboration with sister company, Bluecrow Joinery.

The most special part of the fit-out was the whitewashed pine staged seating, office screens with train carriages providing effective spaces for employees to work and relax together. The team at Bluecrow thoroughly enjoyed working with PO again and wish the team behind accuRx the best of luck in their new amazing space.

When it comes to shopfitting, Bluecrow specialise in the restaurant, bar and retail sectors. We have the confidence, knowledge and expertise to deliver your vision on time and within budget.
