

SHORYU RAMEN

Built in Westgate Shopping Centre, Oxford, Blenheim Design utilized hard, soft and simple elements of traditional Japanese design.

Once inside you are greeted with many raw materials ranging from the solid oak flooring to the high solid oak bench tables and chairs. Other key features included were the traditional paper lanterns and cloud-like feature pendant lights incorporated in the lighting design.

An outstanding split face granite bar is incorporated in front of the open kitchen, allowing diners to sit at a 6m long bespoke London Plain timber leaner bar while watching their Ramen being prepared.

The Bluecrow Team surpassed themselves when it came to bringing all these elements together to produce what is the tenth branch in the Shoryu Ramen empire.

When it comes to shopfitting, Bluecrow specialise in the restaurant, bar and retail sectors. We have the confidence, knowledge and expertise to deliver your vision on time and within budget.
